

October 2021

2nd Part of the reporting fiche - EVALUATION

In the previous months, your company has decided to participate in the Digital Volunteers Pilot Programme with more than 40 other leading European companies. By participating to this Pilot Programme, you are supporting European Small and Medium Size Enterprises (SMEs) in their digitalisation process.

Following your mentoring scheme, you are now asked to provide your feedback. This feedback will be essential for Commission's services to prepare and design a more structured version of the programme, allowing a greater number of companies to participate and more SMEs to benefit from such schemes.

*The deadline to provide feedback is on the **12th November 2021**. Please note that providing feedback is an obligatory step for each company participating to the programme.*
