Better Factory Trainings

Welcome to **Better Factory** trainings!

This section will allow you to better understand **our project**, learn about **our challenges** and get to know **RAMP Marketplace** and **APPS**.

Our team also aims at providing the necessary **training content** to support the **adoption of skills for deploying the Better Factory technologies** and effectively implementing cyber-physical systems and collaborative robotic technologies to maximize agility in production for the personalization of products through agile manufacturing.

A final part is dedicated to non-technical learning units, e.g., business-related training, where you can find supporting content for the execution of these activities in your projects.

Onboarding to the project Better Factory

[How to apply to our Open Call?](#)

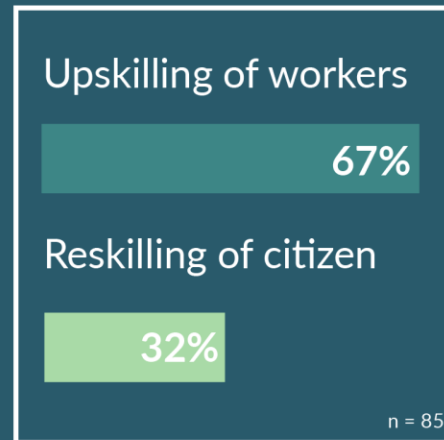

POLL RESULTS ON DIGITAL SKILLS

Done during the EDIH's conference

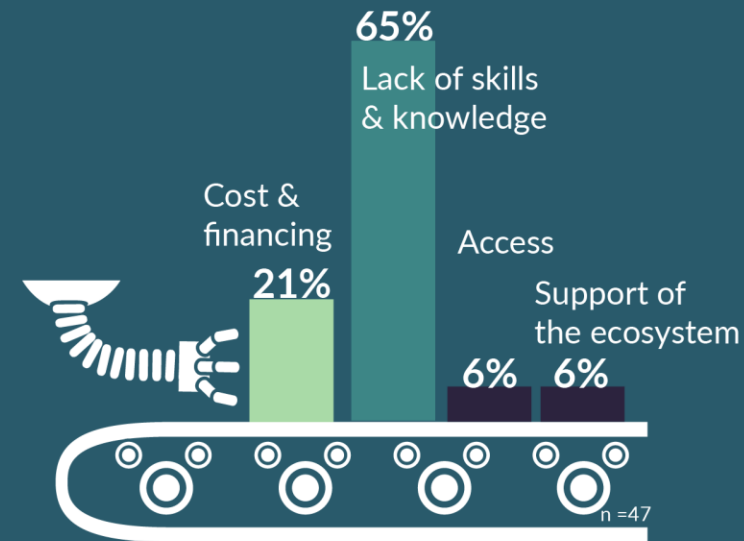

Main obstacle for the **upskilling** of workers/citizens

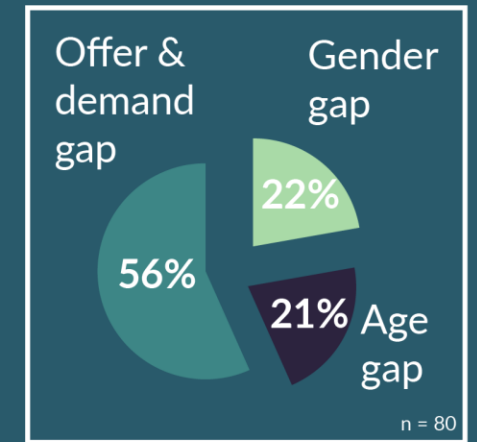

Offer & demand of **digital talent** most urgent challenge

Biggest challenges SMEs face when **adopting new tech**

Primarily gap to be address

The logo for i4MS, featuring a vertical bar on the left, followed by a plus sign, and the letters '4MS' in a dark blue font. The entire logo is contained within a white circular shape.
