Champions for the Digital Decade Financial Support to Third Parties

Introduction

Champions for the Digital Decade is funded under the Digital Europe Programme (DIGITAL-2024-ADVANCED-DIGITAL-06 – Advanced Digital Skills). This call for proposals, launched under the C4DD project, provides targeted Financial Support to Third Parties (FSTP)- specifically National Coalitions—to strengthen their impact within Europe’s digital skills ecosystem.

Funding will support the creation, improvement, and maintenance of national websites connected to the Digital Skills and Jobs Platform. These websites should offer high-quality, up-to-date information on training, funding opportunities, best practices, and events, while improving accessibility for individuals and organisations seeking digital upskilling.

Support is available for both newly established NCs—to help build their digital presence—and existing NCs—to upgrade infrastructure, enhance interoperability, and deepen engagement with national stakeholders.

Through this call, the C4DD project aims to foster collaboration, boost visibility, and accelerate digital skills development across all Member States.
